

## Monica Olsen, Olsen and Associates Consulting Inc. – Principal

**Monica Olsen** is an organization effectiveness consultant based in the Toronto area. Her academic background in organization development, psychology and nursing coupled with her expertise in management, facilitation and executive coaching have been used by public and private organizations for the past 25 years.

In response to clients' requests, Monica has designed and delivered various programs including team development, leadership effectiveness, performance development, emotional intelligence and workplace resilience. Additionally, she facilitates group interventions in the areas of strategic planning, culture change, team building and leadership development.

Monica brings insight, inspiration and humour to her consulting and training practice. She is recognized as a sensitive and effective facilitator and coach in promoting self-awareness and personal change leading to enhanced working relationships.

She is a long standing faculty member for the *Physician Manager Institute Program* at the Canadian Medical Association and is also on faculty for the *Masters Certificate in Healthcare Management Program* at the Schulich School of Business, York University.

Sample clients include various organizations such as the Federation of Medical Women of Canada, Canadian Hospital Infection Control Association, Cancer Care Ontario, University Health Network, St. Michael's Hospital and Sunnybrook Health Sciences Centre – Brain Sciences Program.
